

No hierarchies. Performance counts.

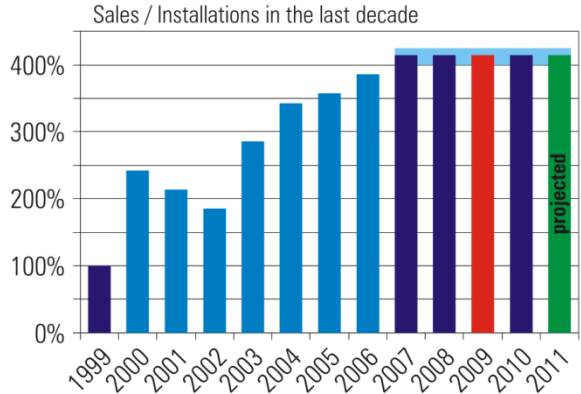

PLATIT is a worldwide leader in PVD coating technology.

We are a small, international team working according to the OPEN SOURCE principle.

Our sales are limited by support capacity, not by greed for profit.

The crisis hasn't stopped PLATIT and its developments, on the contrary:

Project Engineer m | f

Technical qualifications and team abilities are deciding factors.

We are not looking for sales people or MBAs with ties.

- Tasks: Planning, installation, and testing of small and medium-size coatings systems. Technical support for users.
- Participation in research and development projects.
- Location: 50% in Switzerland, 50% worldwide
- Qualifications: Bachelor or Master in mechanical or electrical engineering.
- Experience with coatings for cutting tools, molds and dies.
- Contact: Renato Cervini, r.cervini@bloesch.ch - +41 (32) 654 2626
