

PLATIT AG is a privately owned Swiss SME, active world-wide as a leading manufacturer of thin-film hard coating equipment for tooling and tribological components. At our HQ in Selzach we develop innovative PVD/PE-CVD technology and high-tech coatings for tomorrow's applications. PLATIT is part of the internationally active BCI Blösch Group with around 350 employees worldwide, which is well established in several markets as a technology leader.

To complete our R&D team located in Selzach (SO), we are looking for a

Team Leader R&D Engineer (w/m/d, 80-100%)

Your responsibilities & tasks:

- Leading and executing R&D projects in the field of PVD/PE-CVD-coatings for tools
- Management of the cutting test lab and coating benchmark
- Development and optimization of coating recipes and coating processes
- Leading and representing of dedicated R&D projects with universities and partner companies
- Attending scientific conferences, giving talks, and presenting papers

Your qualification:

- PhD or master's degree in the field of engineering, physics, material science, or chemistry
- Knowledge in the field of vacuum technology and PVD/PE-CVD-coatings
- Several years of work experience in PVD/PE-CVD-coating applications (cutting, forming, tribology, etc.)
- Ability to work in an organized fashion with a scientific work approach
- Proactivity, flexibility and "hands-on" mentality
- Preferably experience in the metalworking and tooling industry
- Fluent in English. German and other additional languages are beneficial

We offer:

- Demanding position in a highly innovation driven technical company
- Work environment with wide freedom to execute innovative ideas
- Interdisciplinary cooperation between global R&D teams, partners, universities, and customers
- Opportunities for international assignments
- Attractive employment conditions, very good social security and pension fund benefits
- Modern working environment. Close connection to public transport and free parking
