

PLATIT AG is a Swiss SME, active world-wide as a leading manufacturer of thin-film hard coating equipment for tooling and tribological components. At our HQ in Selzach we develop innovative PVD/PE-CVD technology and high-tech coatings for tomorrow's applications. PLATIT is part of the internationally active BCI Blösch Group with around 350 employees worldwide, which is well established in several markets as a technology leader.

To complete our R&D team located in **Selzach (SO)**, we are looking for a

R&D Engineer 80-100% (w/m/d)

Your responsibilities & tasks:

- Leading and executing R&D projects in the field of PVD/PE-CVD-coatings for tools
- Development and optimization of coating recipes and coating processes
- Assisting project engineers in technically demanding customer projects with R&D support
- Representing PLATIT R&D in development projects with universities and partner companies
- Attending scientific conferences, giving talks, and presenting papers

Your qualification:

- Master's degree in the field of engineering, physics, material science, or chemistry, PhD is beneficial
- Several years of work experience in R&D, either as part of a PhD program or in industry
- Knowledge in the field of vacuum technology and PVD/PE-CVD-coatings
- Ability to work in an organized fashion with a scientific work approach
- Proactivity, flexibility and "hands-on" mentality
- Experience in the metalworking and tooling industry are beneficial
- Fluent in English. German and other additional languages are beneficial

We offer:

- Demanding position in a highly innovation driven technical company
- Work environment with wide freedom to execute innovative ideas
- Interdisciplinary cooperation between global R&D teams, partners, universities, and customers
- Opportunities for international assignments
- Attractive employment conditions, very good social security and pension fund benefits
- Modern working environment. Close connection to public transport and free parking
